# ATTEND TO ACHIEVE

## ABSENCES ADD UP

### Did You Know?

Starting in Kindergarten, too many absences can cause children to fall behind in school.

Missing 10% (18 days) can make it harder to learn key skills, like reading.

Absences can affect the whole classroom.

### What You Can Do

Don't let your child stay home unless he/she is truly sick. Keep in mind that complaints of tummy aches may be a sign of anxiety; talk to your child's teacher or counselor.

Avoid extended trips when school is in session; consult the school calendar to see when breaks occur.

Set up a regular bedtime as well as morning and evening routines.

### When Do Absences Become a Problem?

Chronic absence: Two or more days per month (excused and unexcused)

Warning Signs: One-two days per month or more than three days in a row.

Satisfactory: One or fewer absences per month.
